

SFW-3

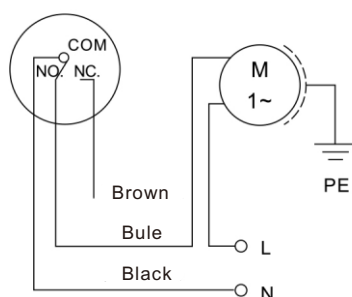

FLOAT SWITCH

LEFOO

Dimension in: mm

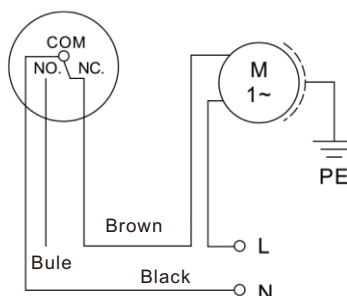

1 . Auto-fill-water modes

Connect the control's blue line to electric pump, black line is connected to zero-line, brown line can not be connected and should be insulated.

Float switch is a switch that can adjust the liquid level in a barrel, tank or well. It can be adjusted automatically, easy to operate and install, safe and reliable. It is exempted from maintenance and is nontoxic and environmentally friendly. It has resistance to sewage and is widely used in domestic, industrial and mining pools, oil, acid and alkali pools, barrels, tanks, sinks and other containers.

2.Auto-drainage and lack-water protection modes

Connect the control's brown line to electric pump, black line is connected to zero-line, blue line can not be connected and should be insulated.

Specification

General	SFW-3
Rated voltage	AC110/220V
Max.Current	AC 16(4)A
Frequency	50/60Hz
Max.Using Temperature	60°C
Protection Degree	Ip68
